I AM THE LIGHT OF THE WORLD!

- Jesus

GLOBAL EVANGELISTIC NETWORK

Light on!

Whenever we enter a dark and unknown room, the first thought that crosses our minds is: Light on! Our crisis-torn world is increasingly becoming such a room. I have good news! – God turned on the light on Christmas! Jesus came as the light of the world to bring light into the deepest abysses of human depravity. Wherever Christ is preached, his brilliance shines forth, even today – sins are forgiven and the sick are healed.

I had opportunity to experience this fact first hand in Ethiopia, in January. God worked miracles! I served in various churches and was

able to get some insight into the structure of the Pentecostal church in Ethiopia. We had meetings and good conversations with influential leaders, who will be very helpful for the future work in Ethiopia. Later on, due to the Corona situation, a planned Gospel meeting for the end of May had to be postponed.

In February I flew to India. It was a miracle to get a missionary visa to India! Since the visa was issued only shortly before I travelled, only small meetings could be organized. The Lord moved in those meetings – sins were forgiven and the sick were healed. Christian leaders were trained and revived by the Holy Spirit.

The lockdown in Germany and in other parts of the world had messed up my schedule quite a bit. My activities were limited mainly to Germany ever since. Despite restrictions, we were able to spread the Word of God via television and on social media platforms. The rising number of subscribers and the increasing watch time are encouraging.

**Come what may, the Gospel
must be preached!**

Thank you for your faithful support by your prayers and donations.

You are helping us to reach people with the light – Jesus Christ.

With this in mind, we wish you a light-filled and merry Christmas!

D. Schott with GEN-Team
